MERN Stack Developer

SUMMARY

MERN Stack Developer with hands-on experience in building dynamic and responsive web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in developing user-centric interfaces, backend integration, and database-driven features. Seeking MERN Stack Developer internship or junior-level role to contribute to real-world projects and grow professionally.

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript (ES6+), React.js, Next.js
Backend:	Node.js, Express.js
Database:	MongoDB
Tools & Tech:	Git, GitHub, VS Code

PROJECTS

Stay Vo Student Accommodation Platform | [MERN Stack](#)

- Developed a MERN-based web platform to assist students and newcomers in finding accommodation.
- Designed responsive interfaces using React.js for seamless desktop and mobile viewports.
- Implemented robust backend functionality using Node.js and Express.js.
- Integrated MongoDB for managing housing listings, user bookings, and application data.

MultiCart E-commerce Platform | [MERN Stack](#)

- Developed a fully functional full-stack e-commerce application allowing users to browse products, manage a shopping cart, and place orders securely.
- Built dynamic and responsive frontend user interfaces using React.js and Next.js, managing application state efficiently.
- Created robust RESTful APIs using Node.js and Express.js to handle product catalogs, user authentication, and order processing logic.
- Designed and optimized database schemas in MongoDB for fast and scalable storage of product and user data.

Loadgo Transportation Platform | [MERN Stack](#)

- Developed a logistics and intra-city transportation application, operating on a model similar to Porter, connecting users with reliable delivery vehicles.
- Designed an intuitive frontend using React.js and Next.js for seamless ride booking, vehicle category selection, and order management.
- Engineered backend architecture with Node.js and Express.js to manage driver allocation, distance-based fare calculation, and secure API routing.
- Utilized MongoDB to efficiently store and scale user profiles, driver details, fleet information, and ride histories.

WORK EXPERIENCE / INTERNSHIPS

Apna College | [MERN Stack Developer Intern \(Online\)](#)

- Developed MERN stack applications with focus on frontend-backend coordination.
- Worked on real-world project structure and collaborative development practices.

INFOWIZ Software Solutions | [Python Programming Intern \(Offline, Jul 2022 - Aug 2022\)](#)

- Worked on Python programming fundamentals and algorithmic problem-solving exercises.
- Assisted in developing training materials and hands-on practice tasks for student batches.
- Gained experience in writing clean, structured, and modular Python code.

EDUCATION

B.Tech in Computer Science and Engineering (2023 - Present)
Global Institute of Technology and Management, Gurugram

Diploma in Computer Science
Government Polytechnic, Adampur

CERTIFICATIONS

- MERN Stack Developer Certification
- Python Programming Certification
